

# SOCIETY WOMAN'S WORLD AND WORK . . .

## Wise Sayings

Since it is human which shapes and creates all other things, it makes best itself to let man down—desires.

Practices yourself, for Heaven's sake in little things, and then proceed to greater education.

Every act and every faculty soon tempts certain others to its practice.

Differences are virtues that show what men are like.

Epistles, Chap. 6, v. 13.

Expert Says

Flavor of Food  
Aids Digestion

One of Harris Creek's food experts points out that interesting scientific fact that the known flavor of food is an actual help to digestion. This scientist shows that a dish whose very appearance "makes one mouth water" actually starts the digestive fluids to work before you have taken a single mouthful.

This newsy bit of scientific information comes before the public in connection with the announcement made by W. K. Kellogg, whose food products have been before the public for many years, that he has created a new food which he calls "Kellogg's Roasted Corn Kernels." The flavor of "Corn Krips," Mr. Kellogg asserts, is so delicious that after you have once eaten it "your mouth waters" at the very sight of a bowlful of Corn Krips.—Advt.

Each package contains a vial of fruit essence, made from condensed fruit juice.

Add boiling water, then this flavor, and you have a fresh-fruit dainty.

Compare Jiffy-Jell with the old-style quick gelatine desserts. You will find it five times better, yet it costs no more.

Millions now enjoy it.
